

**AMENDMENT TO THE SPECIFICATION**

Please amend the specification by marked up replacement paragraph(s) as follows.

Please replace paragraph 2 on page 4 with the following:

--Figure 6B shows a conventional system for providing Internet access to a residential user with a LAN. The PCs 633 and 635 at site D communicate over a LAN 637. The LAN ~~673~~ 637 connects to a DSL modem ~~641~~ 614 to provide connectivity for PCs 633 and 635 to the Internet 623. As indicated previously, the ISP 619 views the LAN ~~673~~ 637 behind DSL modem 641 as a single dial-up user.--
